

## OneRate™ Voice

# Simplify Your Communications Budget with Predictable Costs for Every Call

### OneRate Voice offers:

#### Consistency

Pay a fixed rate for each call, making budgeting easier and more predictable.

#### Simplicity

No need to understand the intricacies of routing calls through various carriers and networks.

#### Control

Gain better control over your telecommunications expenses with straightforward, transparent billing.

### How Does Flat Rate Voice Work?

Traditionally, voice providers use automated routing to determine the most cost-effective path for each call, which can lead to variable charges based on the routes and carriers chosen. This variability makes it difficult for businesses to predict and manage their monthly telecom expenses accurately.

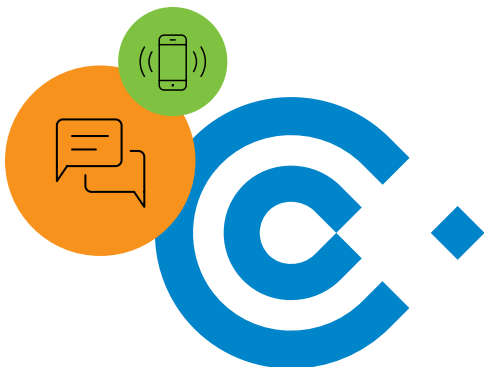

**With OneRate, our engineers analyze your standard calling patterns and select the best carriers for your business.** Then, every call is charged at the same rate, regardless of carrier, destination, or route. This uniform pricing model eliminates billing surprises, ensuring you always know what to expect on your invoice.

Commio flat rate pricing is designed for simplicity and predictability. Our cloud-based platform offers this innovative pricing model to help you manage your costs effectively without the hassle of negotiating with multiple carriers, deciphering complex billing statements, or assigning someone to set up, monitor, or manage call routing.

### How Flat Rate Pricing Benefits You

Switching to a flat rate pricing model provides numerous benefits for businesses looking to streamline their telecommunications expenses. Here's how you can benefit from Commio OneRate:

- **Predictability:** Know exactly what your voice communication costs will be each month, allowing for better financial planning and budget management.
- **Ease of Use:** Eliminate the complexity of dealing with multiple carriers and the unpredictability of varying call charges.
- **Efficiency:** Spend less time worrying about your phone bills and more time focusing on growing your business.

## Get the Right Model for Your Business

	OneRate	Intelligent Call Routing
Budget & manage call costs predictably based on an average of the lowest cost routes	✓	
Get the lowest price on every single call		✓
Avoid assigning a team member with telecom expertise to monitor and manage routing decisions	✓
